# PennHIP Report

Referring Veterinarian: Dr Rachael

Campbell

Email: rngurm@yahoo.com

Clinic Name: Bridgeview Animal Hospital

Clinic Address: 11740 Olio Rd. Suite 300

Fishers, IN 46037

Phone: (317) 841-3315 Fax:(317) 284-0528 SCAN This is

Medica

## **Patient Information**

Client: Vestal, Kendra

Patient Name: Pocket Full of Posies

Reg. Name:

PennHIP Num: 104533

Species: Canine

Date of Birth: 06 Aug 2016

Sex: Female

Date of Study: 07 Feb 2017

Date of Report: 07 Feb 2017

Tattoo Num:

Patient ID: Pocket Full of Posies

Registration Num:

Microchip Num: 933000120052510

Breed: MIXED BREED

Age: 6 months

Weight: 27.8 lbs/12.6 kgs
Date Submitted: 07 Feb 2017

### Findings

Distraction Index (DI): Right DI = 0.28, Left DI = 0.28.

Osteoarthritis (OA): No radiographic evidence of OA for either hip.

Cavitation/Other Findings: None.

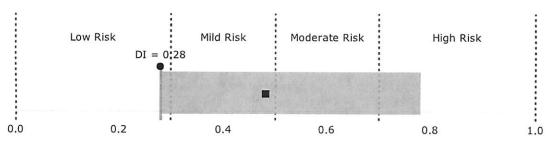

#### Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.28.

OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.

Distraction Index Chart:

### MIXED BREED

**Distraction Index** 

Breed Statistics: This interpretation is based on a cross-section of 8801 canine patients of the MIXED BREED breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.28 - 0.78) for the breed. The breed average DI is 0.48 (solid square). The patient DI is the solid circle (0.28).

Summary: The degree of laxity (DI = 0.28) ranks the hip within the tightest 5% of DIs for the breed. This amount of hip laxity places the hip at a minimal risk to develop hip OA. No radiographic evidence of OA for either hip.

Interpretation and Recommendations: No OA/Minimal Risk: Unlikely to show radiographic evidence of hip OA; even more unlikely to develop clinical signs of hip dysplasia. Recommendations: Normal to strenuous activity is permitted. Keep

lean: try to maintain BCS at 5/9 for a longer and healthier life.

Breeding Recommendations: Please Consult the PennHIP Manual.

**Comments:** 

Thank you for following policy and sending at least 2 Distraction views, as confirmation, when the hips appear tight (less than 0.30 DI).
